

# WATCH TV EVERYWHERE

## WHAT IS WATCH TV EVERYWHERE?

WTVE for us, is TV programs that are available on something other than your TV set. That means your PC, laptop, ipod, iphone or android. Content is available wherever you have a connection to the internet or sufficient cellular data.

## BEWARE OF USING YOUR CELLULAR DATA!

It is FREE...you only need to be a subscriber to the network through our Cooperative.

Different networks make different programs available to WTVE at different times. So the number of networks and programs available will expand as time goes on.

Simply go to [www.watchTVEverywhere.com](http://www.watchTVEverywhere.com) select your provider and click on "Register" to get started!
